

NEVER AGAIN

Never Again

Will we let the fear of another holocaust lead us to embrace the ethnic cleansing that continues to be done in our name.

Never Again

Will we greet invasions with excuses, air strikes with talking points, and massacres with the silence of those "good" Germans history rightfully condemned.

Never Again

Will we denounce all theocratic governments, colonial occupations and theories of national purity except when they apply to the State of Israel.

Never Again

Will we accept targeted assassinations, collective punishments, tortures, blockades and the systematic destruction of Palestinian society as justifiable for any reason at all.

Never Again

Will we claim the bitter fruits of conquest as our rightful inheritance.

Never Again
